

Instructions to access nedit remotely

1. Type "ssh -Y j_pilafas@ares.harpercollege.edu"
2. Enter password (myHarper password)
3. Enter "nedit progname.cpp" -- OR -- Enter "nedit progname.cpp &"
 - a. Entering "nedit progname.cpp" will allow me to edit the program, but to compile the program again in the compiler/terminal, you must close "nedit".
 - b. Entering "nedit progname.cpp &" will allow me to edit the program AND have the ability to compile the program again in the compiler/terminal.
